20. DESCRIPTION:
CELINA's Multi-purpose Area Shelter System (Type II) is designed to provide increased environmental protection and energy efficiency to the warfighter. The shelter is a field-proven subsystem within the U.S. Air Force's BEAR Kitchen System, and has been deployed to numerous locations worldwide. The system is supported by a lightweight, rigid framework and designed to be deployed within a moment's notice. It is transported in all shipping configurations (land, air and sea), and easily erected. CELINA's Multi-purpose Area Shelter System is Berry Compliant and capable of being extended or complexed.
