

RX SERIES

RAPID DEPLOYABLE SHELTER SYSTEM

UNDER COVER IN MINUTES.
BACK ON THE MOVE JUST AS FAST.

THE NEXT GENERATION OF EXPEDITIONARY SHELTERS

Modern military operations demand lighter, faster, and more mobile shelter solutions. Units must establish operational capability quickly while minimizing logistics.

The CELINA RX Series was developed specifically for that mission.

Designed for rapid deployment, compact transport, and operation, the RX Series provides lightweight shelter capability for expeditionary forces, disaster response, and humanitarian missions.

DESIGNED FOR MOBILITY

Unlike traditional base camp shelters, the RX Series was built for missions where speed matters.

- Rapid under-canopy time
- Tool-less assembly
- Small crew deployment
- Compact transport footprint
- Modular shelter configurations
- Minimal logistics burden
- Expeditionary-focused design

Whether supporting military operations, disaster response, or humanitarian relief efforts, the RX Series helps personnel establish operational capability quickly and efficiently.

BUILT FOR THE MODERN FORCE

Purpose-built for expeditionary missions where speed, mobility, and operational readiness are essential.

Ideal Applications

- Tactical Billeting
- Command Posts
- Medical/Triage
- Disaster Response
- Humanitarian Assistance
- Logistics Operations
- General Purpose Shelter

KEY FEATURES

Rapid Deploy Exoskeleton Frame

The external frame design allows the shelter to deploy quickly while maximizing interior space and simplifying setup.

Integrated Floor and Liner System

Provides a clean, functional operating environment immediately after deployment.

Modular Architecture

Available in multiple lengths and capable of supporting future complexing and expansion options.

Berry Amendment Compliant Option

Available in U.S.-manufactured configurations supporting Department of War procurement requirements.

COMING SOON

RX20-1 • 20' x 10'

RX20-3 • 20' x 30'

RX20-2 • 20' x 20'

RX20-4 • 20' x 40'

MISSION READY. MOBILITY FOCUSED.

CELINA is currently conducting development, testing, and validation of the RX Series Rapid Deployable Shelter System.

Contact us to learn more about upcoming demonstrations, prototype evaluations, and field testing opportunities.
